

Maxi 800

50mm - 190kN

D'Angelo's objective was to design one model fifth wheel that suits almost all applications. The result is the patented Maxi. A true all-round performer and now available at 800mm wide.

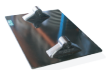

The special feature of D'Angelo's Maxi 800 is its unique adjustable wear collar which prolongs jaw life. The Maxi 800 fifth wheel is fitted with an easy reach, side access retractable release handle. This means at all times, whether hooked up or disconnected, the handle retracts against the turntable. This feature reduces the likelihood that the release handle is unintentionally bent, which can cause problems when reconnecting.

The side mounted release handle and low profile design of the Maxi 800 also means it suits slide-back type trailers.

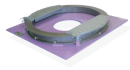

Features

- 50mm jaw
- 800mm wide
- Secondary release handle
- Easy access side adjustment bolt
- Greaseless option available (*pictured below*)
- Long life foot bushes
- Two year structural warranty
- Pedestal PCD

Mounting Assemblies

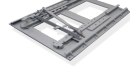

Fixed Plate
